Percentage - 68.50%

10th standard

June 2019 - April 2020

Percentage - 58.00%

PROJECTS

Vision AI Web App (HTML, CSS, JavaScript, React)

Feb 2025 - Mar 2025

- Implements real-time face detection through the user's webcam, allowing instant recognition and interaction on the web interface. Interactive user experience, ensuring smooth rendering of real-time updates.
- Provides a user-friendly interface that updates dynamically as faces are detected, enhancing the overall experience.
- Implemented a bounding box feature for face detection that provided immediate visual feedback, leading to a 25% reduction in average response time for customer inquiries received through the platform.
- Includes visual indicators like bounding boxes to highlight detected faces, offering clear and immediate feedback to the user.

TrackWise (HTML, CSS, JavaScript, Java, SQL)

Nov 2024 - Jan 2025

- Instituted a streamlined attendance tracking application featuring role-based access controls, ensuring 100% data integrity and enabling administrators to generate accurate reports within 10 minutes, previously 30 minutes.
- Provides role-based access, allowing different functionalities for administrators and regular users to ensure data integrity.
- Stores and retrieves attendance data securely, ensuring accurate records for future reference and analysis.
- Features a simple and intuitive interface, making it easy for users to navigate and perform tasks with minimal effort.

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, CSS, JavaScript, Java, React.js, SQL, MS Excel
- **Languages:** English, Tamil
- **Certifications:** Frontend Development, Software Testing
- **Internship:** Web development, Internpe
- **Soft Skills:** Teamwork, Adaptability, Active listening, Project management
